

The febi MultiPLUS Absorber is able to absorb every kind of oil and substances similar to oil, as well as fuels, lubricants, emulsions, brake fluids, coolants, anti-freezes, numerous chemicals, coatings and paints and more on **Land and Water**.

## Land

Cover the substance to be absorbed with MultiPLUS Absorber.

Work in briefly with a coarse brush.

MultiPLUS Absorber absorbs instantly and can be removed immediately.

## Water

Cover substance to be absorbed with MultiPLUS Absorber.

Leave for a few seconds. MultiPLUS Absorber will only absorb the substance.

MultiPLUS Absorber can be removed.

# MultiPLUS Absorber

Efficient – Fast – Safe

 SOLUTIONS  
MADE IN GERMANY

[www.febi.com](http://www.febi.com)

With this **NEW MultiPLUS Absorber**, we are offering a innovative solution especially for the workshop and other customers who work with liquids.

Put an end to smeared workshop floors and unproductive use of oil binding agents.

**Efficient:**

- absorb every kind of oil, lubricants and more
- absorbs up to four times its own weight

**Fast:**

- works within a few seconds
- easy to handle

**Safe:**

- non-toxic, natural, organic fibre which has been proven for application on land and water surfaces
- no negative effects on the environment, animals, or human beings

Traditional Granules

MultiPLUS Absorber

**To absorb 200L of waste oil:**

- **MultiPLUS Absorber:**  
6 bags of 50L = total weight of 205kg

- **Conventional Absorbent:**  
13 bags of 40L = total weight of 420kg

**febi 174817**  
(50L Bag = absorbs 33L oil)

**febi 174816**  
(15L Bag = absorbs 10L oil)

**febi 174815**  
(10L Box = absorbs 6,6L oil)

**Benefits at a Glance**

- ✓ 100% Organic
- ✓ Works within seconds
- ✓ Absorbs up to four times its own weight capacity
- ✓ Easy to handle
- ✓ More cost efficient disposal due to lower weight and volume
- ✓ Can be used repeatedly until product is fully saturated
- ✓ Made in Germany
